

CALLIGO ACQUIRES CANADIAN BASED CLOUD SERVICES BUSINESS 3 PEAKS

Calligo is delighted to inform you that it has purchased 3 Peaks Inc.

MESSAGE FROM IAN CLARK, PRESIDENT

After running 3 Peaks for over 20 years, now is the time to “pass the torch” to a firm that has the resources and skills to advance our offerings to the next level. The future looks fantastic with new offerings that will help your business be more productive while keeping your data in the same Canadian datacentres with new capabilities to have data in multiple countries if required.

ABOUT CALLIGO

Calligo is a global cloud service provider founded in 2011, which is dedicated to delivering our clients a world leading cloud platform with data privacy and security at its core. Our comprehensive unified Data Protection centric approach, which integrates European GDPR (General Data Protection Regulation) and other internationally recognised regulations, enables our clients to securely leverage the advantages of combining innovative technologies and unrivalled expertise.

FUTURE OF 3 PEAKS

We are thrilled to have found a great partner in 3 Peaks as part of our strategic expansion into North America. This acquisition provides a unique opportunity to bring together the joint expertise of a highly-respected local organization with a trusted global cloud provider.

WHAT DOES THIS MEAN TO YOU?

3 Peaks will rebrand to Calligo, with that you will have access to a truly global brand, with its own industry renowned and innovative service lines including our unique GDPR enabled infrastructure and the Microsoft Azure Stack offering. All of which is backed up with the support of an established global service provider with the latest privacy and security technologies, processes and standards. Calligo will continue to operate the existing service offerings and has a very strong commitment to excellent customer service.

STAFF & OFFICES

The 3 teams managed by Alex, Josh and Bill that you work with regularly for sales, support and datacentre operations will continue to operate in Burlington and Vancouver. The team will integrate into the global Calligo structure, providing you with greater access to industry experts who are all there to support your business. Calligo's support model is based on a global presence delivered locally.

SUPPORT

You will continue to receive a high level of support, which will be enhanced by Calligo's 24/7 support team for faster and superior support.

WHERE'S IAN CLARK?

As an entrepreneur for over 33 years Ian is excited to be joining the Calligo management team. He's also very pleased to see his customers and staff excel with the leading edge hosting services of Calligo in a fast moving Cloud industry.

If you have any questions about this exciting news and what it will mean for you, please contact us at any time. We look forward to introducing ourselves to you in the near future.

Julian Box
Founder and CEO
